

Dairy farmer workshop

Smarter Irrigation - Using your water allocation wisely

Irrigation can be expensive, so it's vital to know how much water you have AND how much you can do with it. Like money, water must be budgeted and managed accordingly. If you overspend, it will run out! Come and see what you can do to continue your planning for the irrigation season.

presented by

Tim Powell, Farm Monitoring Specialist, Integrated Irrigation

Sam Work, Water Dynamics

Damien Heintze, Water Broker, Ruralco Water

David Williamson, Natural Resources South East
