

Forage Workshop *includes four free silage tests*

- Do you know how to get the most from your silage?
- Do you have a cost-effective feed plan for Summer?
- Have you tried the new 'Dairy Feed Tool' to assist you with feed planning?

Anthony Pearce will deliver this valuable session on best practice for silage feeding and quality management and take you through the new nutrition planning tool (Dairy Feed Tool) which is available free to dairy farmers.

On completion of the workshop each farm participating in the day will receive four free silage test kits.
