

- **Do you want to understand your farm business better?**
- **Do you know how to improve your business performance?**
- **Are you optimising your time spent 'on the business'?**

**DairySA is pleased to present the two day DairyBase course to be held both in the South-East and Central regions.**

This FREE course will provide you with the skills and understanding of how to improve your whole farm business performance, using the web-based DairyBase program.

### **What will be covered?**

#### **Day 1—Understanding farm business management and DairyBase**

- Farm business performance measures
- Principles of a well-balanced dairy business
- Preparing for a farm business analysis
- Entering data into DairyBase

#### **Day 2—Using DairyBase**

- Create individual farm reports and compare your farm performance over multiple years or with industry data
- Interpret results from DairyBase and understand what they might indicate about your business
- Share your data with other users such as your consultant or accountant
- Privacy around DairyBase
