Agreement and Signature

DairySA would like to share the process and information learnt by you in having a catch can test undertaken for your farm. Do you agree to the use of this information and taking photographs of the process as a positive case study for other farmers to learn about the process and the benefits involved?

- Yes
- No

The total cost of the development of a full catch can is around \$700. In agreeing to be a positive case study participant, DairySA will subsidise part of your farms costs to be involved. Do you agree to make a \$100 contribution for each catch can test?

- Yes
- No
